

We had the pleasure of meeting Suzi Morgan! She was a Head Teacher at Woodlands School. While she was still a Head Teacher, she didn't have to tell the students off very much. This is some of what she shared with us:

I decided to become a Governor when I left Woodlands School. I left and I went to Jacqui Tovey at Ridge View and asked to be a Governor. Before I became a governor I was a Head Teacher and Governor at Woodlands School.

My favourite food is yogurt and vegetables and I also like fresh salmon and smoked salmon. I am not keen on beef but I like chicken.

SUZI MORGAN

I haven't really been involved in the new school yet, but I help by talking about how much progress the students are making and planning for the future.

As a Governor, I work within the school to make the best decisions.

Being a Governor, I get to show my skills to Jacqui and the students.

I keep the school safe by making sure there are systems in place, so that people are trained properly. As Governors we look at the budget and we allocate money to make sure that it will all happen.
