

At Holywell Primary School we Recognise & Realise Aspirations

We believe that to be an **aspirational** school our learners need to develop the following:

respect
enterprise
accomplishment
learning
individuality
skills
esteem

To achieve this we:

Promote **respect** for ourselves, each other and the environment wherever we are.

Embrace **enterprise**, developing as a creative community, able to solve problems and utilise new technologies in the changing world.

Value **accomplishment** through challenge, resilience and high expectations, working both as an individual and as a member of a team.

Ensure that successful **learning** takes place in a creative, stimulating and personalised environment where everyone feels safe and happy.

Celebrate **individuality**, recognising talents, interests, diversity and original thought.

Strive to develop key **skills** to enable success.

Enhance **esteem** of self, through physical, spiritual, social and mental development.
