

DOVER GRAMMAR SCHOOL FOR BOYS

INFORMATION ABOUT THE SCIENCE DEPARTMENT

- The Subject Leader for Science is very experienced and has qualified as an Advanced Skills Teacher, supported by two second in charge teachers.
- All three Sciences are taught to GCSE in KS4 and they are all offered at A-level.
- Science is taught in six refurbished laboratories, fully equipped with interactive whiteboards and networked computers. The Department also has access to mobile technology including laptops and data-logging equipment.
- The Science Department is a lively, forward-looking Department with an active approach to learning.
- The Department is committed to challenge for all, including our Gifted and Talented students. Currently, at KS4, a range of courses is offered:
 - Triple Science
 - Combined Science
- The Sciences are a very popular option in the 6th form at A-level and a good number of students go on to study Science at University.
- The Department comprises seven teachers and three Technicians who sometimes act as Teaching Assistants.
- The Department has led the way in piloting cross-curricular projects – a development which is now an established aspect of the curriculum.
