## **Information Technology**

At Northfleet Technology College, Information Technology is one of the most popular lessons with our students at Key Stages 4 and 5. At Key Stage 5 we deliver BTEC and International Baccalaureate qualifications and are keen to develop this further. Key Stage 3 IT benefits from dedicated curriculum time.

The subject sits within the Business and Computing Faculty, giving an exciting opportunity for staff to develop further their technology and teaching pedagogy within a secure and supportive team. We want you to share with our students your skills and knowledge to create a secure, creative, and focused learning environment. At NTC we focus on developing our learners to be independent, resourceful learners' and to develop their personal skills and attributes to be valued members of the local and wider community.

Information Technology gives the opportunity to develop creative solutions to technology situations. The subject area opens many discussions surrounding the practical applications, programmed solutions and the potential for technology to do good.

We have excellent IT facilities, being fully wireless and with Year 9 and above having their own laptops. We also have a wealth of resources that are available for use in lessons and technical support to aid its use in and out of the classroom. We encourage debating activities and 'learning outside the box' to enable our students to follow our ethos of Curious, Creative and Caring learners.

Teamwork is a key part of IT and, therefore, you would be joining a very dedicated and efficient technologically focused team to work with. As a team, we teach across all three key stages, each one offering a different level of intensity in knowledge and application and a range of computing and IT related subject topics.

At Key Stage 3, we aim to develop the basic knowledge for our students surrounding how computers work, use of applications and programming. We look at the skills required and develop students' research and investigative skills. At Key Stage 4, we study the BTEC Level 2 IT assessed through a blend of examined and coursework components. Students will bring their foundation skills from KS3 to support their development towards completing their Key Stage 4 courses and moving into KS5. At Key Stage 5 we study the BTEC Level 3 Information Technology and International Baccalaureate Digital Society Diploma. This involves independent and taught component study skills to be able to develop a successful website, repair computer systems, work with databases and investigate ethical issues created through using technology. The computing and IT team are also heavily involved in our award-winning Nature Reserve where technology is used to monitor and manage the flora and fauna on our school site.
