

Northfleet
School for Girls

Dream Big and Achieve

PROSPECTUS

2025 - 26

"This is a school for life no matter what your interests or skills." - Parent Feedback 2025

WELCOME

Northfleet School for Girls is a vibrant and caring school with a very clear vision that all students can 'Dream Big and Achieve.' All students are capable of being amazing and our role is to support every individual in having high expectations for their future, ensuring they are successful through their academic achievement and their wider 'whole person' development.

This vision is achieved through three key areas:

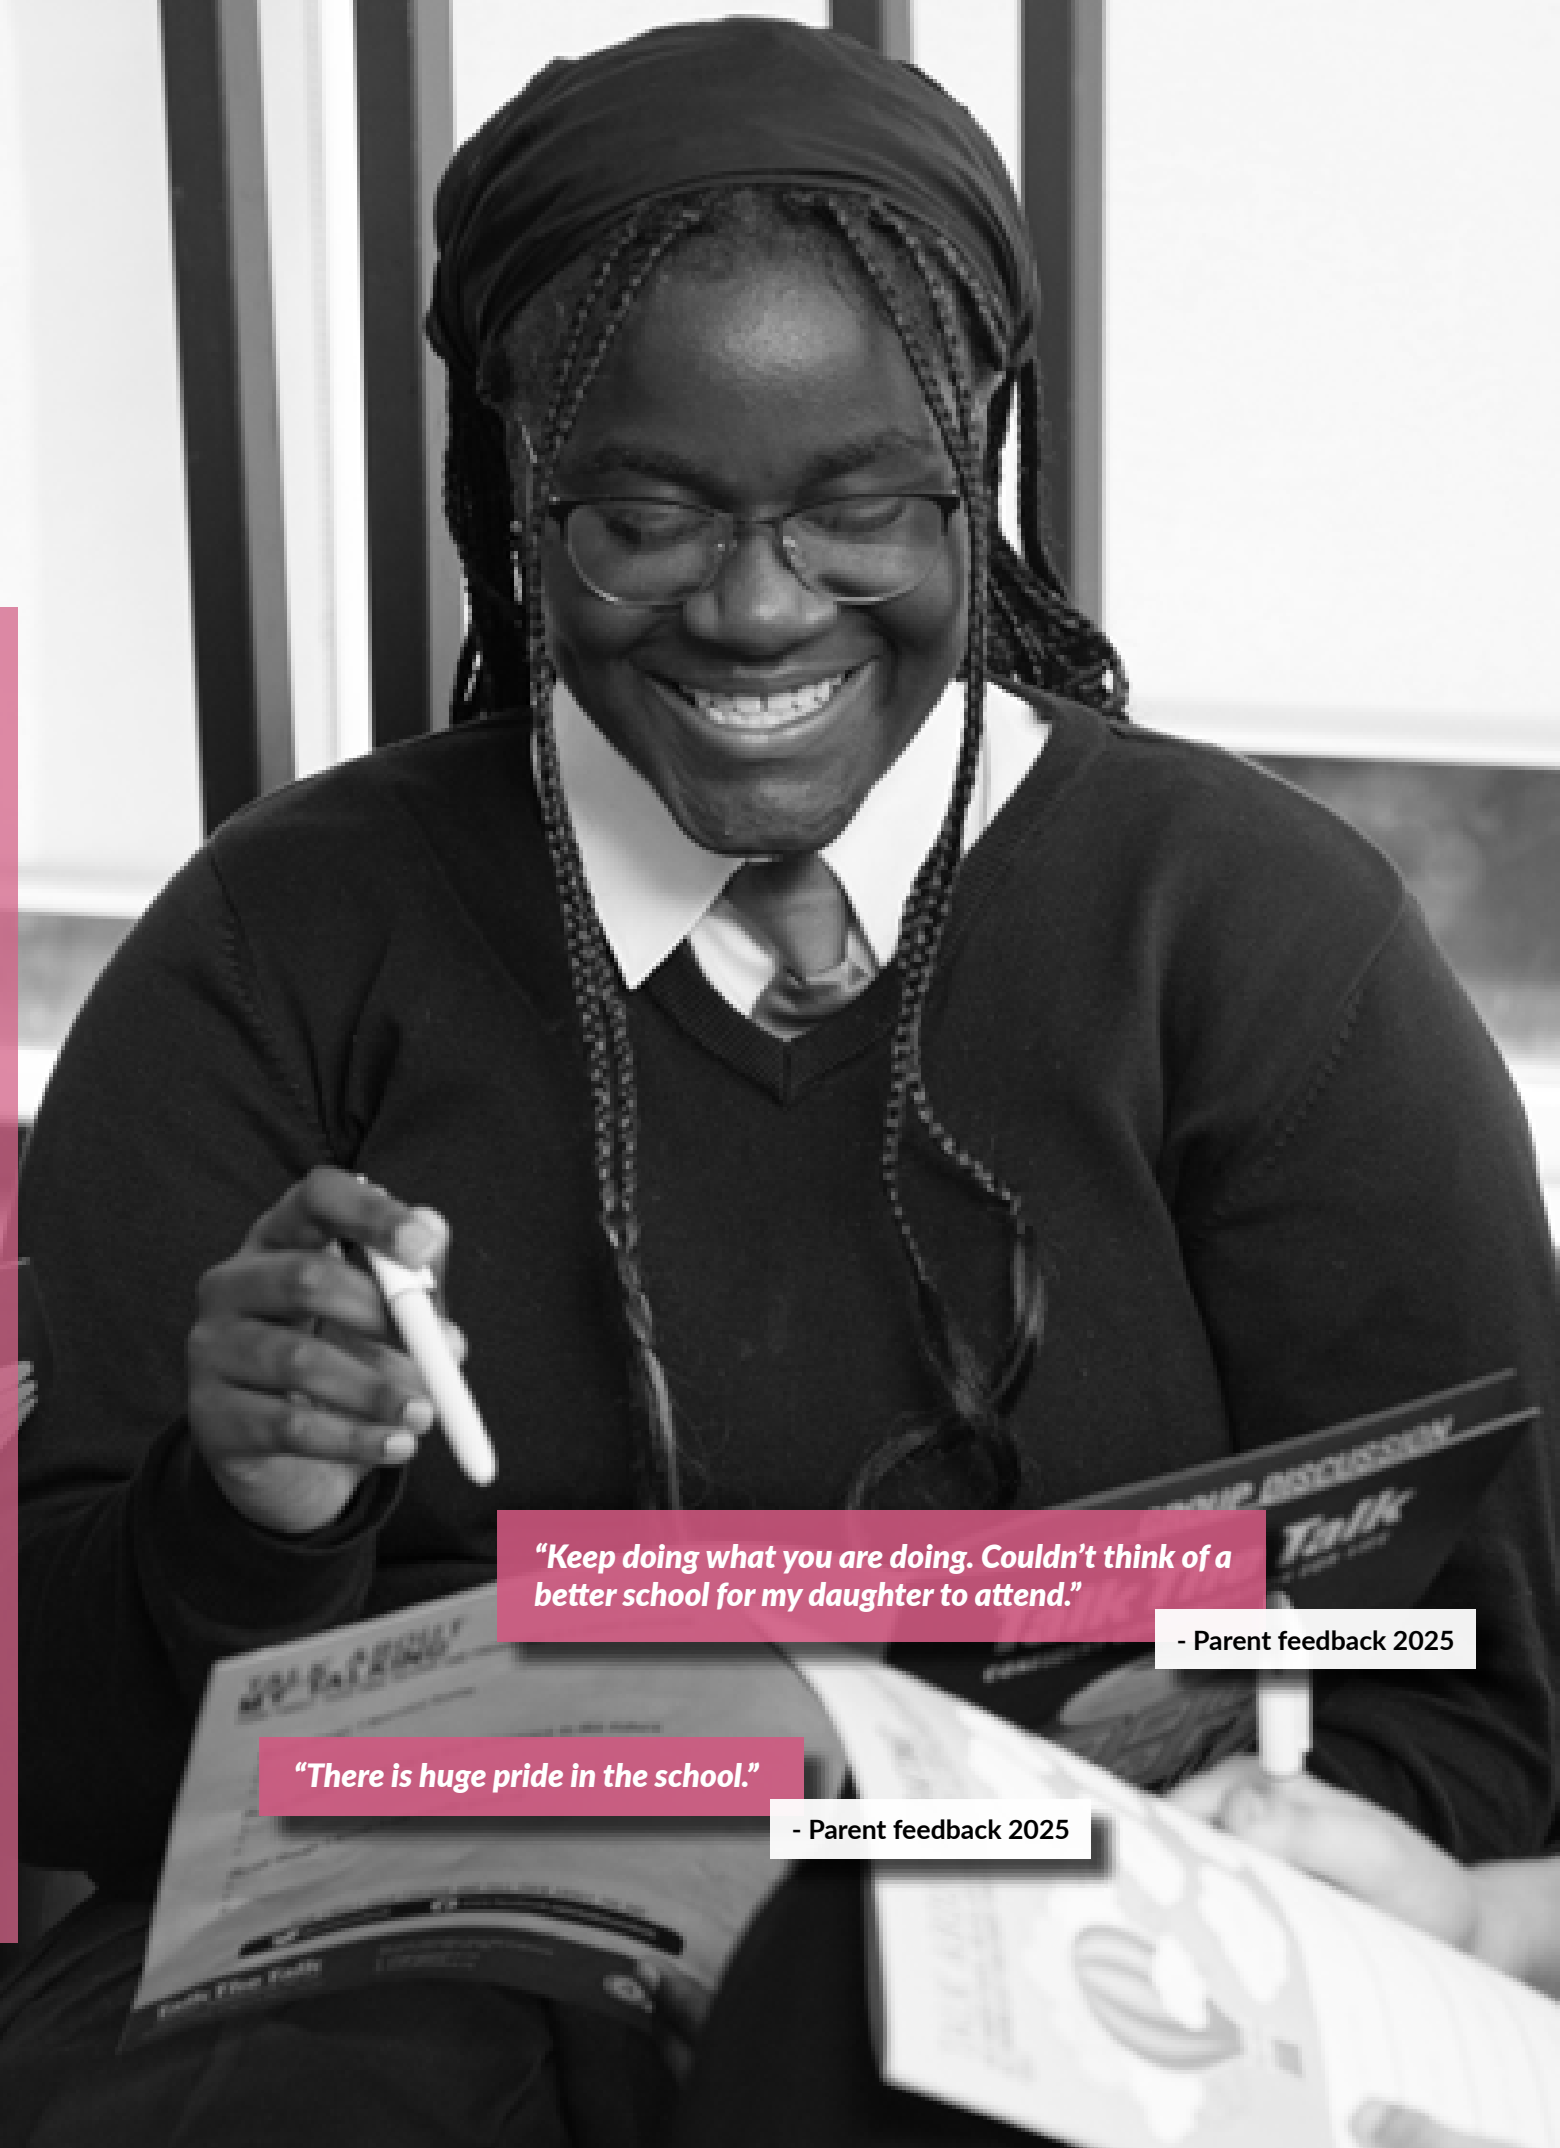

High expectations in all aspects of school life. The biggest requirement for future achievement is high expectations, both of the student themselves and those supporting them. We work with students to ensure the highest expectations in uniform, behaviour, attendance, academic progress and future career choices.

Working together for the best possible future. At NSfG, students and parents will experience a community dedicated to working together for the benefit of all. Key to our success is the knowledge that when staff, students and parents work effectively as one team, the best possible results will be achieved for all.

Enjoying the journey and creating positive memories. School should be an enjoyable experience and this is achieved through a friendly and caring culture, a wide range of enrichment opportunities and strong support for developing positive, healthy relationships.

We hope that you enjoy finding out more about our school through reading this prospectus. If you have any further questions please do not hesitate to contact us.

Chris Norwood
Headteacher

"Keep doing what you are doing. Couldn't think of a better school for my daughter to attend."

- Parent feedback 2025

"There is huge pride in the school."

- Parent feedback 2025

HIGH ACADEMIC STANDARDS

If students are to '***Dream Big and Achieve***' they require excellent academic results. Over recent years we have consistently performed above similar schools, including grades 8 - 9 (A* equivalent).

Excellent academic progress is achieved through:

- Consistently high-quality learning, ensuring the correct balance of challenge and support
- Excellent classroom behaviour, meaning that students can learn effectively
- A focus on individualised support, starting with strong assessment, leading to all students receiving exactly the help they require
- High expectations of homework to further learning outside school hours
- Effective use of ICT through our E-Learning Scheme
- A dedicated and caring staff team with very low employment turnover.

In addition to our mainstream learning, we operate the following programmes to support targeted groups of students:

Fast Track Programme

Students capable of achieving the very highest grades and top future destinations, including Russell Group universities, are supported through the Fast Track Programme. This involves more challenging learning, targeted careers support and an additional enrichment programme in areas such as debating, strategic thinking, leadership skills and wider talent development.

Bespoke/transition pathway

Some students struggle with transition into secondary school, with this in mind we operate a transition class. This smaller than average sized class group spend around two-thirds of the time with one teacher in a more primary style environment, with the remaining time in mainstream classes. Gradually, through Year 7, students are supported into full time mainstream classes and then offered, as required, a bespoke range of support for the remainder of their time at NSfG.

Individualised special needs support

Our excellent special needs team is highly experienced at supporting students who may require additional support. All students on our SEN register are allocated a keyworker who supports and tracks progress. We always work closely with students and parents to ensure the best possible academic standards are achieved.

"Teachers make frequent checks on learning to help identify what pupils know, and where they require further support."

- Ofsted 2022

"The school really cares about their wellbeing and supports them in many diverse ways."

- Parent feedback 2025

HIGH EXPECTATIONS OF WHOLE PERSON DEVELOPMENT

Academic attainment is only part of supporting individuals to achieve an exciting future. We ensure all students leave with highly developed 'whole person' skills, including teamwork, self-reflection, resilience, problem solving and world mindedness. This is achieved through our **'Dream Big Programme'** covering the following areas:

Dream Big days

Students undertake a range of exciting challenges and experiences such as university days, debating skills, alumni events, careers tasters, wellbeing sessions and community work. These ensure students develop as confident individuals with a clear plan for their future.

Enrichment clubs

We operate a wide range of clubs to develop students' talents and skills, such as baking, lazer tag, trampolining, farm and cheerleading, please look on our school website or social media for the latest list. We ask all students to engage with at least one club every year, either developing an existing passion or trying something new!

Trips and visits

We ensure a substantial range of trips allowing students to expand horizons, learn outside the classroom and develop important life skills. Opportunities range from simple local events such as theatre shows, to adventurous World Challenge trips to South Africa and Costa Rica. We operate the option of the Duke of Edinburgh's Award scheme for students in Year 9 and above.

Leadership development

As well as specific leadership training, students undertake leadership roles in areas such as One School Ambassadors, Peer Mentors, Language Ambassadors, Performing Arts Ambassadors and the prestigious Head Girl teams. Students will regularly lead school events including our cultural days and primary school outreach.

"I like the amount of trips there are and the 'Dream Big' opportunities allow me to know more about life."

- Student feedback 2025

"The staff are amazing and the opportunities are endless!"

- Parent feedback 2025

"Pupils are actively prepared to be creative, resilient and world minded." - Ofsted 2022

WORKING TOGETHER:

A FOCUS ON THE INDIVIDUAL

As part of the working together element of our vision we ensure that every student's individual needs and interests are catered for through the following:

Excellent pastoral care

All students are placed in a college, with each college benefitting from an Engagement Support Leader (ESL) who ensures pastoral care and support within the College community. Students quickly get to know their ESL and work together to ensure they are happy and settled in school.

Additional wellbeing and mental health support

In addition to the above we employ a range of pastoral staff and agencies who can provide further support as required, ensuring all students are able to overcome any personal barriers to future growth.

Personalised learning in lessons and through our E-Learning Scheme

Our highly successful E-Learning Scheme alongside a strong focus on regular teacher feedback means that students are able to receive exactly the learning they require, with teachers adapting lessons to suit individuals.

Celebration of talents and interests

We are very keen to get to know all students, including what makes every young person special. To achieve this we use form time activities which have been instigated through discussions with students. We reward talents through our behaviour systems and regularly celebrate in assemblies and through social media.

Use of student voice

Many of the key developments in our school have been through talking to the students about what they want to feel happy and successful in their learning. This has led to the highly positive community noted by Ofsted and so many of our visitors.

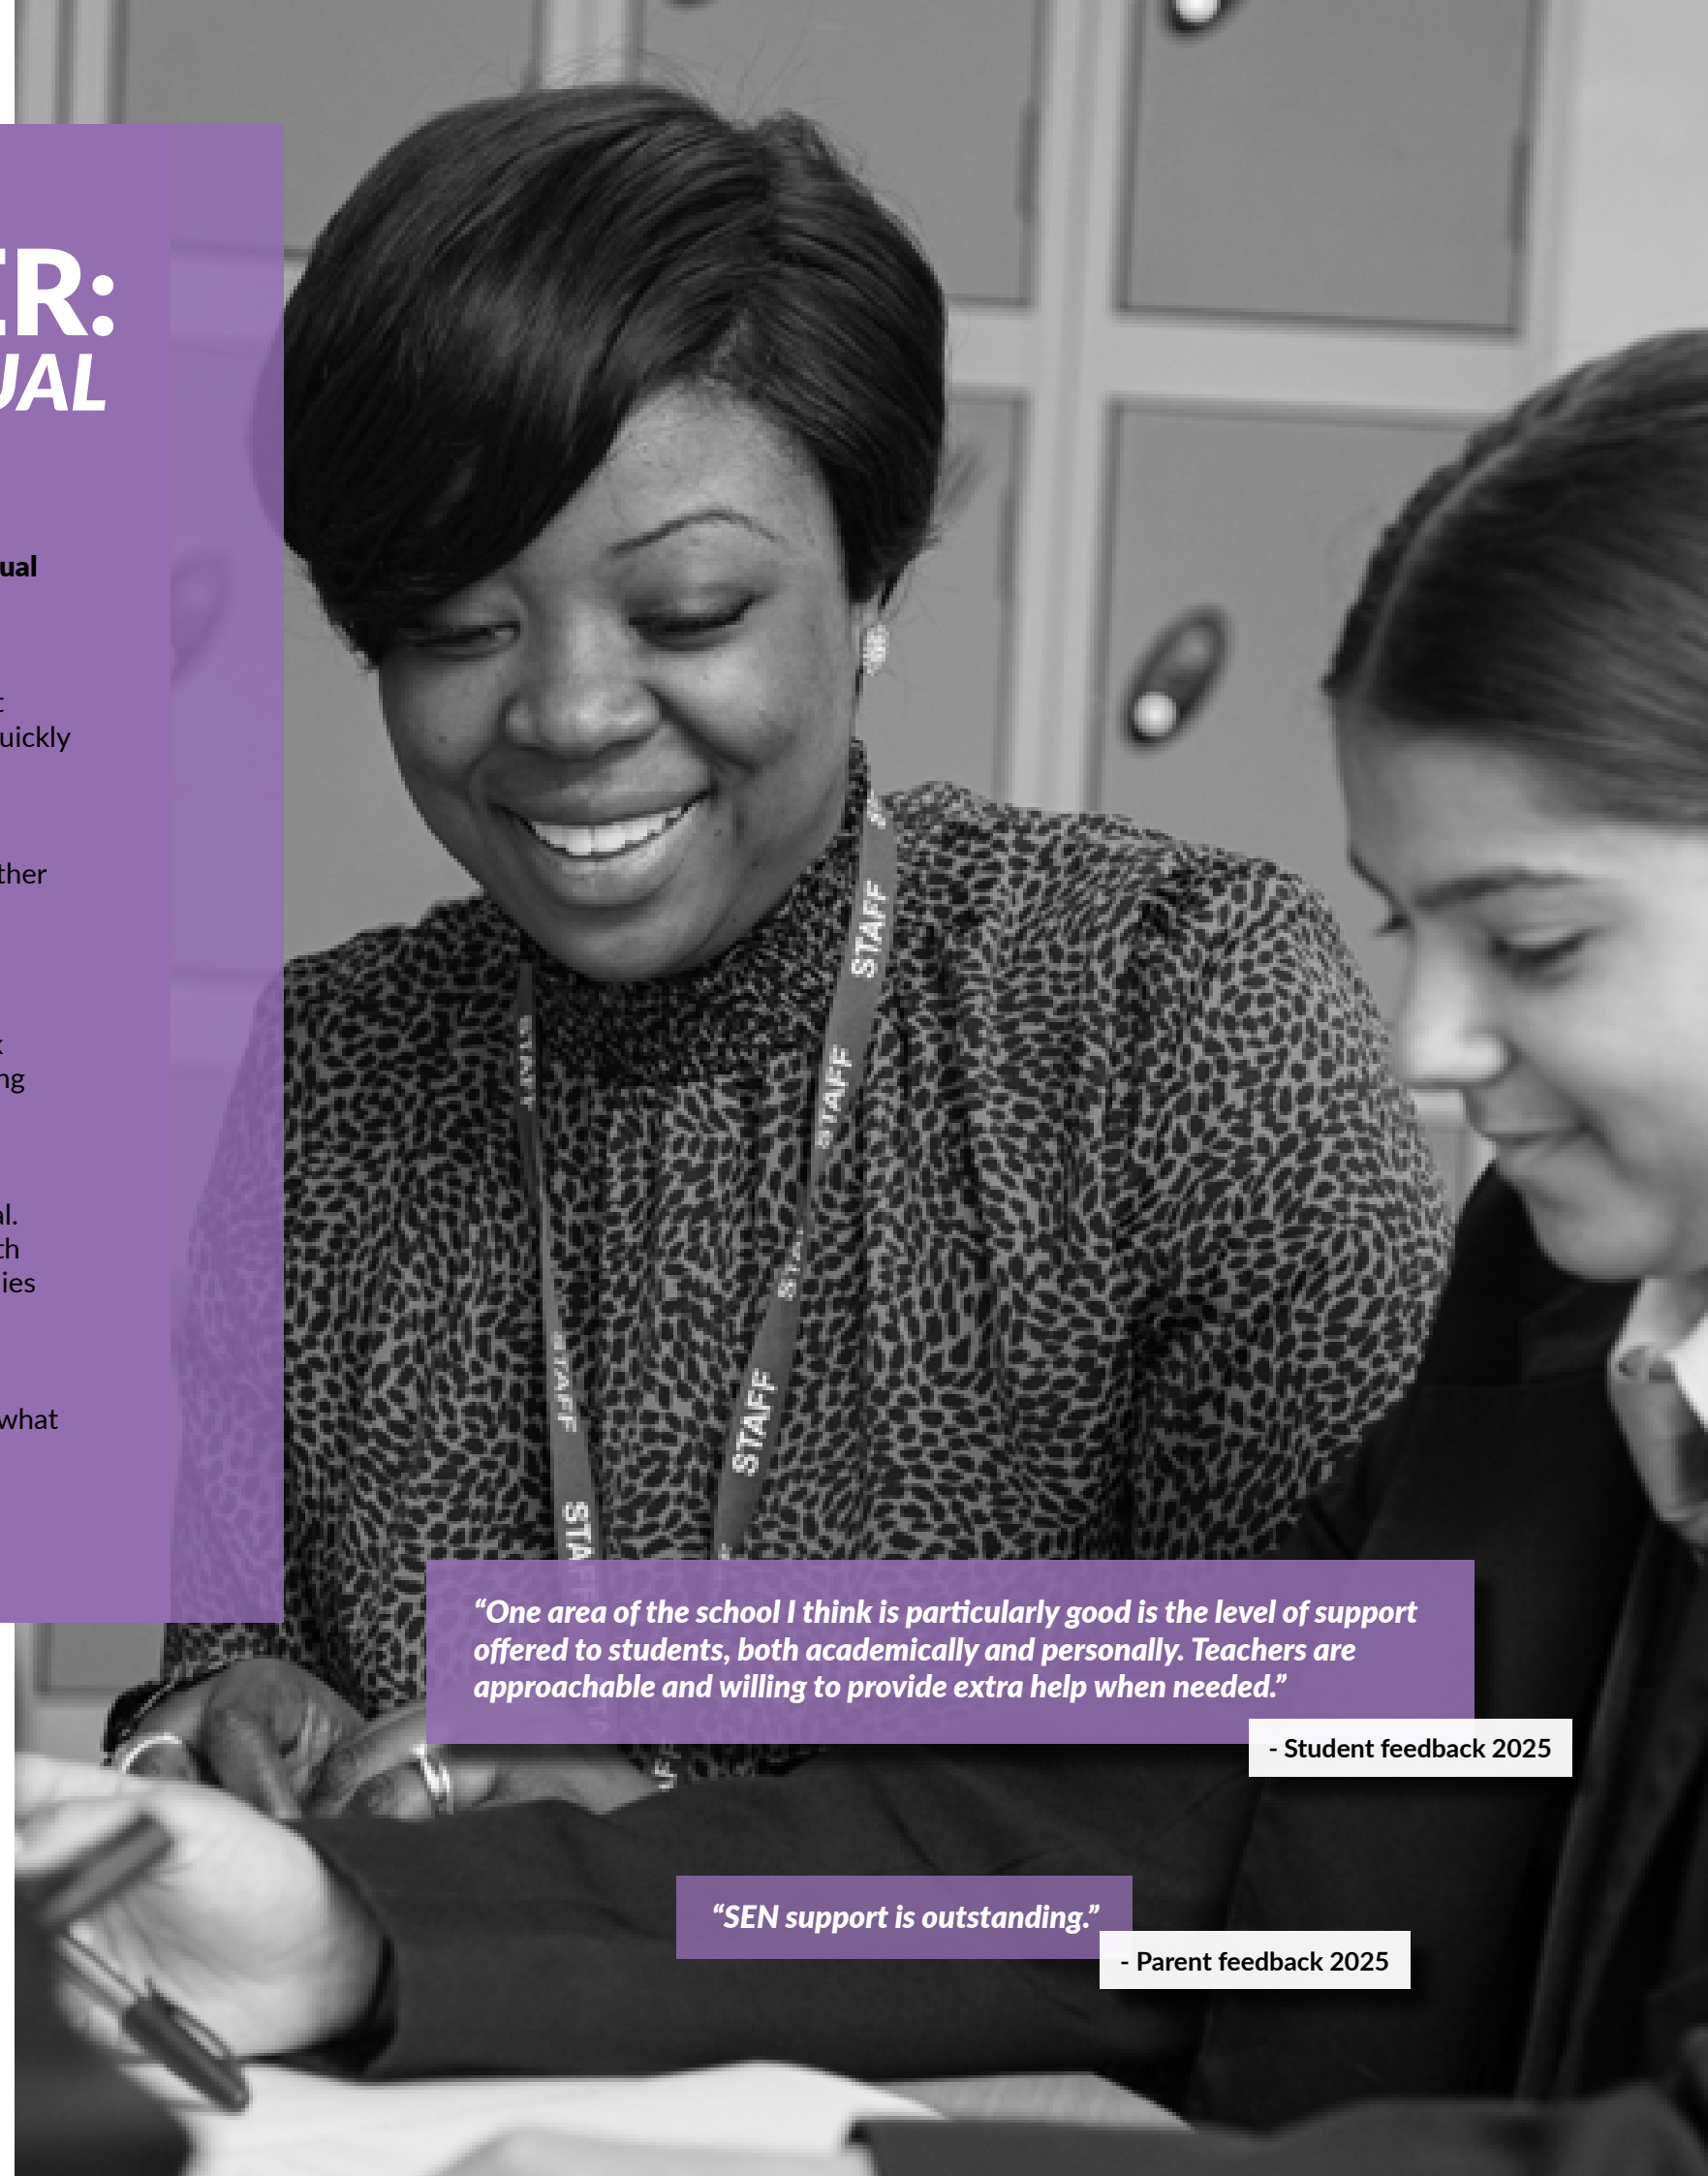

“Northfleet School for Girls is a diverse and inclusive community. Behaviour and attitudes are very positive.” - Ofsted 2022

“One area of the school I think is particularly good is the level of support offered to students, both academically and personally. Teachers are approachable and willing to provide extra help when needed.”

- Student feedback 2025

“SEN support is outstanding.”

- Parent feedback 2025

WORKING TOGETHER WITH PARENTS

Working closely with parents is key to our whole school vision. We know that when there is an effective three-way partnership between the school, student and parents, the best possible outcomes will be achieved for every young person in our care.

We work closely with parents through:

A single point of contact

Through the college system your child's Engagement Support Leader (ESL) will become a single point of contact for any parental queries or concerns. Our excellent ESLs quickly get to know the families in their college and form a productive working relationship.

Involvement in events and day to day life

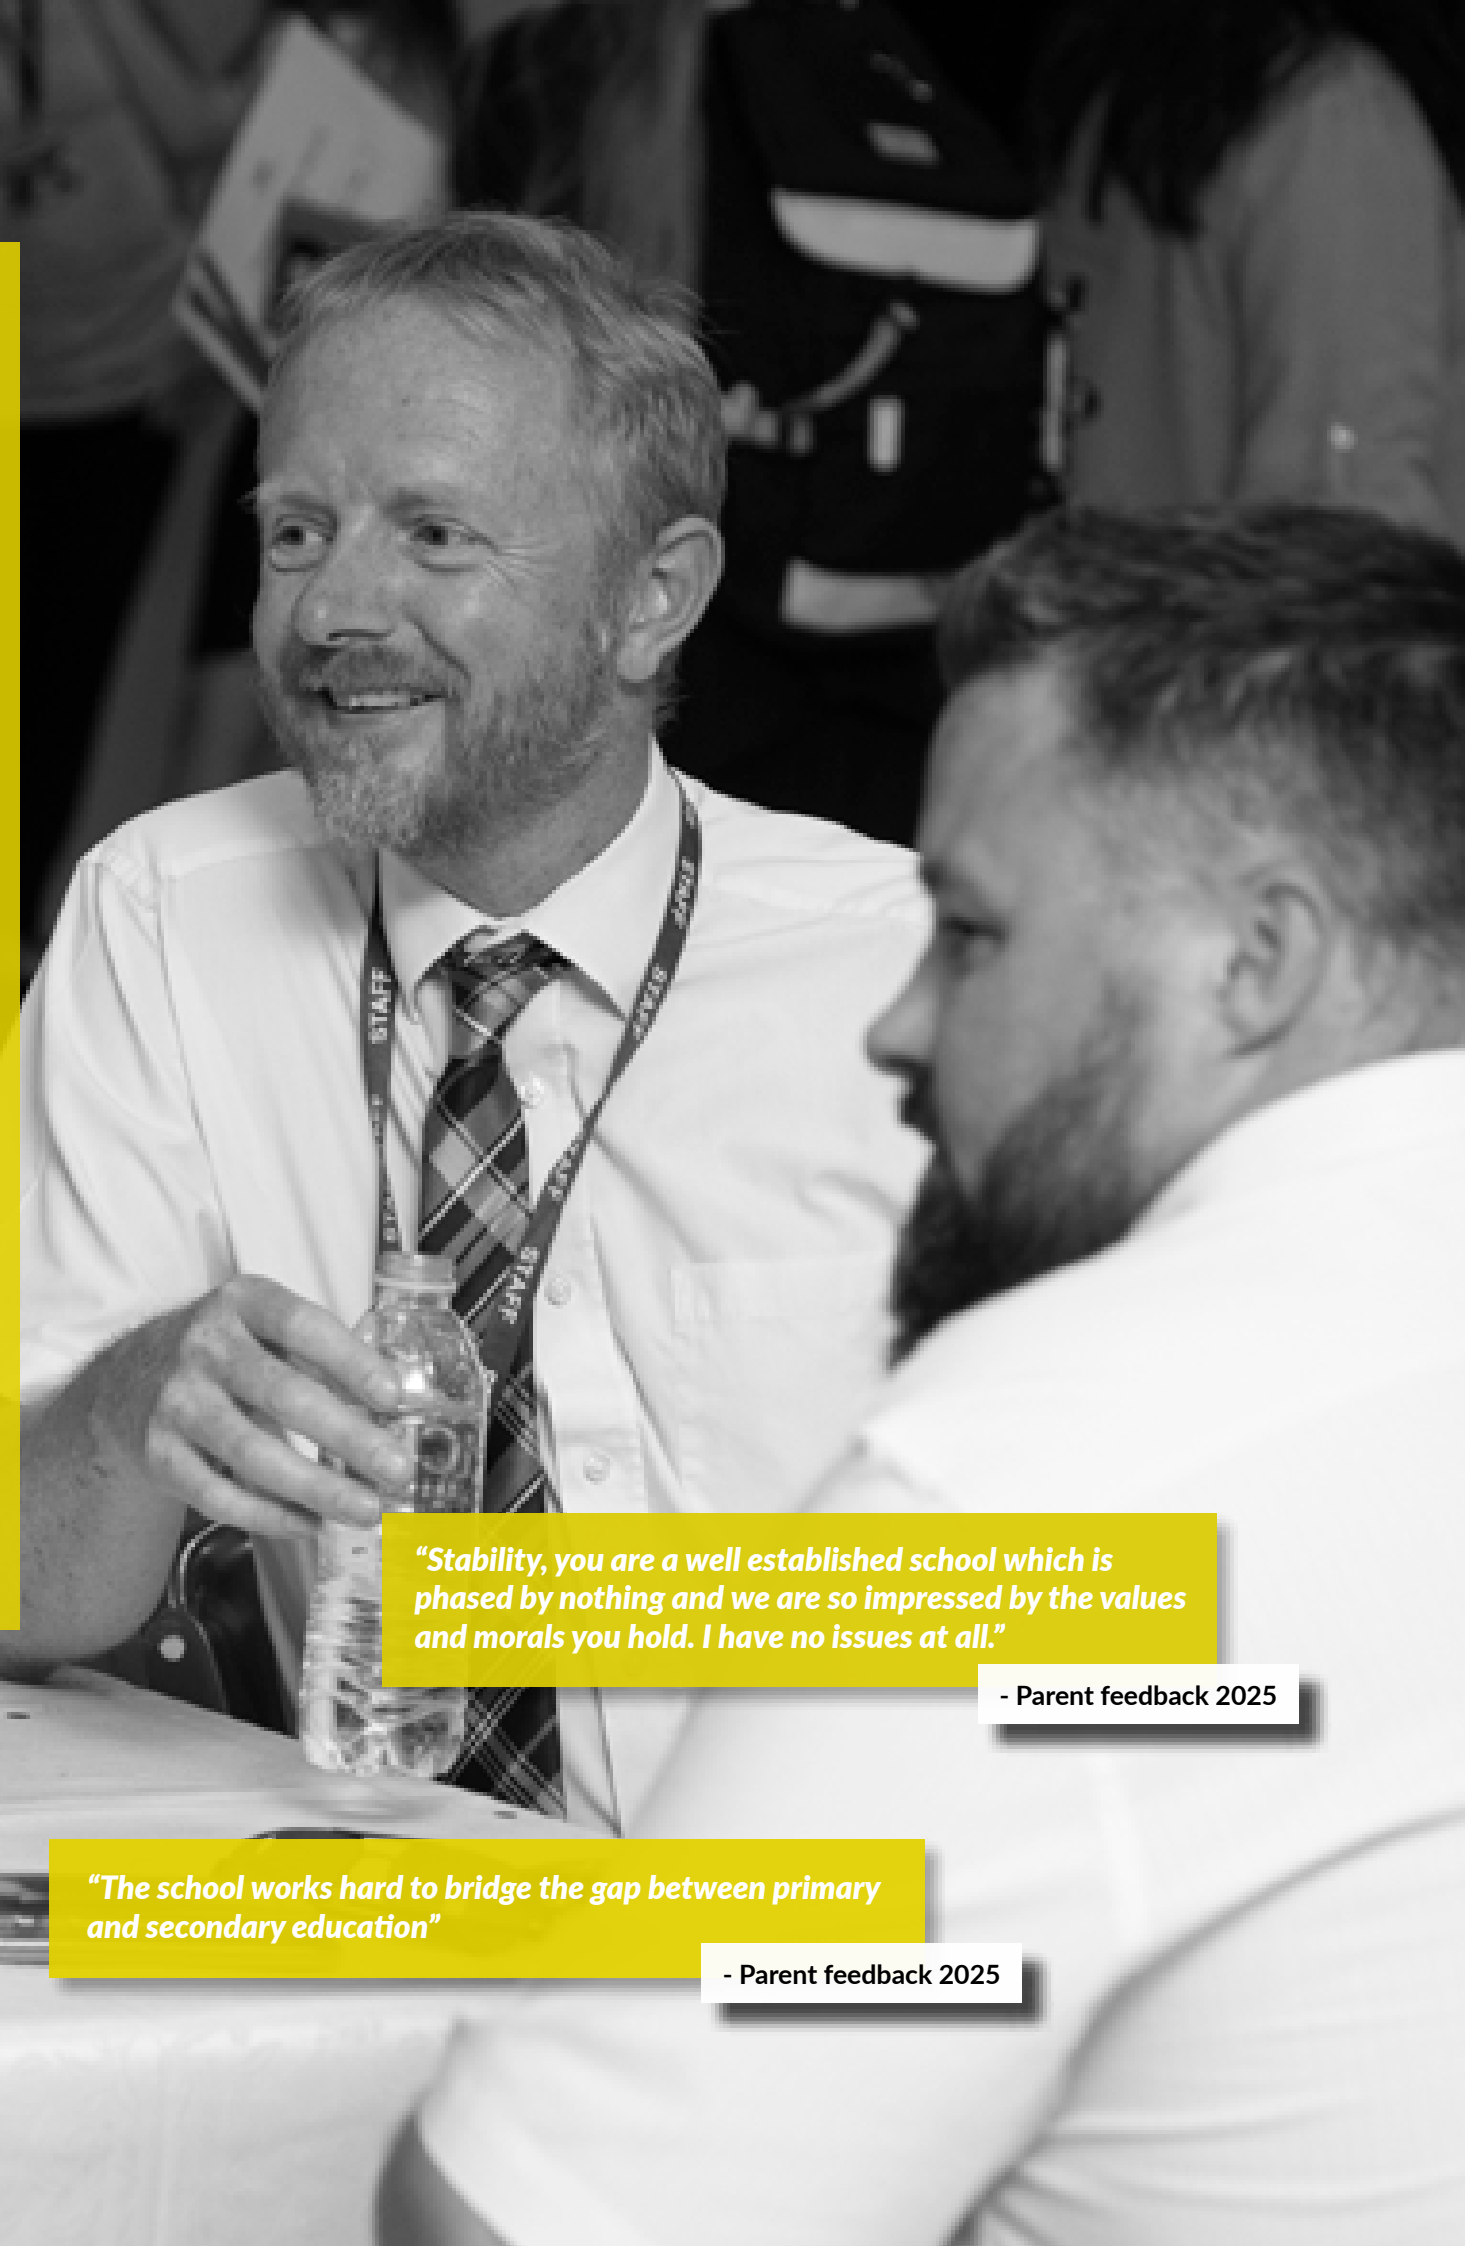

We seek to involve parents as much as possible in the day to day life at NSfG, this will be through extensive use of our website, social media and newsletters as well as invites to events such as reward evenings and performances.

Regular communication on progress and learning

Through our school 'apps' and emails parents have access to a whole range of information on their child's learning and progress. This information includes attendance, behaviour, achievement, academic progress, homework set each week and current curriculum learning. We operate a full programme of parents' evenings and reports throughout the year.

Above all of this we have a central philosophy - please talk to us; we want to work with you in supporting your child to achieve!

"I am very impressed with NSFG and so glad we chose it for our daughter it was definitely the right choice for her." - Parent feedback 2025

"Stability, you are a well established school which is phased by nothing and we are so impressed by the values and morals you hold. I have no issues at all."

- Parent feedback 2025

"The school works hard to bridge the gap between primary and secondary education"

- Parent feedback 2025

ENJOY THE JOURNEY

The enjoy the journey part of our school vision is focussed on two key aims. Firstly, we want students to leave NSfG with many positive memories and secondly we have found that as students enjoy school they then engage more effectively with their learning.

We support students to enjoy the journey through:

Excellent behaviour and a positive culture

We are very proud of how students engage with our school and behave both in lessons and around the school. This helps to ensure that learning is productive and enjoyable as well as students feeling safe and settled in school.

Investing in positive relationships

Through our well-established pastoral system we support students to develop positive relationships which build each other up and do not put down. There are clear and strong systems in place should students not meet this expectation.

Creating positive memories

We offer a wide range of trips, clubs and experiences which help to create positive memories for all students, this includes our annual colour run and the whole school Christmas and summer trips to destinations such as Winter Wonderland, Thorpe Park and Harry Potter Studios.

A valued reward system

Students are rewarded for engaging with our school through achievement points, which build towards a range of recognitions and reward events. This will include reward breakfasts and trips.

A centre of excellence for all talents

Over the last few years we have been significantly investing in our school site to develop facilities that allow all students to develop their talents, this has included the Colyer Art Gallery, Power Hour Fitness Suite, Victoria Library, Northfleet Community Farm and a fully professional recording studio!

"I think that the amount of clubs before, during and after school are very good and organised because it gives everyone a chance to try something new or do something they love. I also think the dream big days are excellent because it gives students the opportunity to learn about different jobs, careers and many more things."

- Student feedback 2025

"The Fast Track programme has been excellent and it has really increased my daughter's confidence"

- Parent feedback 2025

"The school has very high expectations for pupils' behaviour and conduct. Low-level disruption is not tolerated, and was not seen during the inspection. Pupils said that if bullying or unkindness occurs, then it is dealt with quickly and effectively."

- Ofsted 2022

SUCCESS BEYOND SCHOOL

In summary, **'Dream Big and Achieve'** aims to ensure that all students possess the academic results, whole person skills and confidence to be amazing in adult life. We know that this is having an impact through:

Thriving Sixth Form

Our heavily over-subscribed Sixth Form provision attracts an above average number of students choosing to stay with us after GCSE studies, as well as a significant number joining from other schools.

Excellent Destinations

We celebrate all students achieving careers in the areas they are passionate about and this includes aspirational university routes. An ever-increasing number of students leave for top level universities; including Russell Group institutions such as Oxford University. The range of professional subjects studied after our school is equally impressive, including Medicine, Law, Veterinary Studies, Psychology and Nursing .

Alumni involvement

Our past students are keen to stay in contact and regularly return to inspire other students to dream big. Some examples are shown on this page.

GEMMA MURKIN

STUDENT FROM: 1994 - 2001

CURRENT ROLE: Head of Culture & Strategic Improvement, Oxleas NHS

"I'm proud of the work I lead and collaborate on, and I'm driven by the same support and encouragement I received at Northfleet School for Girls to always think outside the box and follow my dreams."

KATIE PECKHAM

STUDENT FROM: 2011 - 2018

CURRENT ROLE: Field Ecologist

"I really enjoyed my time at NSFG and made lots of lovely memories. I am appreciative of the ambition that NSFG instilled in students and their encouragement to pursue passions."

For one of my Masters projects, I helped discover a new species of beetle, which is now named after me and will be displayed at the Natural History Museum in London- a dream come true!"

"Students benefit from a broad curriculum offer. As a result, an increasing number continue their education at well-respected universities."

- Ofsted 2022

"There is a strong emphasis on careers so that pupils meet the school's high aspirations for them."

- Ofsted 2022

“The low staff turnover is testament to the positive and caring atmosphere that pervades all aspects of school life at NSfG.”
